# CASE STEEL ROSTER

Use this guide to identify the steel on your Case® Knife

## STAINLESS STEEL (SS)

A high strength steel alloy with a high percentage of chromium that provides superior corrosion resistance compared to conventional steel. Blades blanked from this material hold an edge longer and have extraordinary blade strength. This type of steel requires minimal care and will resist rusting/tarnishing to a much greater extent than other steels. Stainless has been a manufacturing material at Case since 1916. Identified as the most common type of blade material used at Case, it is referred to as Tru-Sharp™ surgical steel.

## CHROME VANADIUM (CV)

A high carbon 1095 steel containing some Chromium for better hardening and Vanadium to aid in the bonding process. This steel type is known for holding an edge and ease of sharpening. It is important to note that CV steel is not corrosion resistant and is therefore prone to tarnish and rust when exposed to air and moisture. These blades must be kept clean with a thin film of lightweight oil to prevent rusting or discoloration, as well as to maintain the finish of the steel. CV blades will darken over time and develop a rich patina even when well cared for. This steel type was the original material used in Case knives over 130 years ago.

## CARBON STEEL (CS)

Our 1095 steel is part of a class of steels where carbon is the principal alloying element that gives the steel high tensile strength, wear resistance and toughness. Closely resembling our CV blades, our CS steel is also known for its edge retention and ease of re-sharpening while also being susceptible to tarnishing and rusting compared to stainless steel when exposed to air and moisture. A thin coat of oil or other suitable waterproof coating will preserve the steel's original appearance while providing you many years of dependable service.

## 154-CM

A high performance American-made stainless alloy known for its sharpness and edge holding ability. It is manufactured with very few impurities, combining three principle elements: Carbon, Chromium, and Molybdenum. Added levels of Carbon and Chromium enhance the steel's hardness and rust resistant qualities. Re-sharpening can require extra effort. Case began offering this steel type in 2008 and it currently appears in knives featured in annual Case/Bose limited collaborations.

## DAMASCUS (DAM)

The crafting of Damascus steel is a tradition that dates back to the Crusades and is named for the famous Syrian city where some of the first man-made metals were traded publicly. It is comprised of thin layers of metal that are heated together to form a laminated solid. Designs take shape as layers are folded in then welded together by forging. Over the years, Case has opted for both carbon and stainless steel Damascus blades for different knife projects. Various Damascus steel patterns used at Case Company include: Random, Raindrop, Ladder, Snakeskin, and Tear Drop. Case began using Damascus steel in 1989.

## S35VN

A tough, wear-resistant chrome and vanadium-based steel. It is a second-generation refinement of S30V steel. Experienced knife makers report S35VN is easier to work with, due to the addition of Niobium to the steel chemistry. Once annealed, this S35VN responds well to CNC machining, making it an ideal choice for high-performance blade manufacturing. S35VN blades offer superior edge retention and resistance to chips and breakage.

## 80CRV2

A chrome based, high-carbon steel. This material is a very tough, hard-working metal alloy that's preferred by hand-forgers and manufacturers alike to make everything from specialty products like tomahawks and swords to everyday repair tools, fixed blade kitchen knives, fixed blade hunters and traditional folding pocketknives. 80CrV2 steel responds well to grinding and performs dependably in most any environment without buckling under pressure. This steel can be found in the Case® Winkler American Heroes Knife Series.

## CPM20CV

A premium powder metallurgy stainless tool steel which offers impressive performance, wear resistance and edge retention with added chromium levels for corrosion resistance. Case uses CPM20CV most commonly on the Modern EDC and Bridgeline knives.

# CASE TAXONOMY

## HERITAGE

Our traditional slipjoint knives, built to keep your hands sharp and get the job done. These are the styles of knives that have defined the Case brand for more than 130 years.

## SIGNATURE

These slipjoint knives have the right style for any moment that calls for a little something extra — like special deco art on the handle, blade and bolsters, and our licensed products.

## MODERN

This category includes our Modern Everyday Carry folders like the Kinzua® and the award - winning Marilla®.

## SPORTING

A wide array of fixed and folding knives that are built for adventuring — everything from fishing and hunting knives to utility knives for general outdoor use — are included in this category.

## SPECIALTY

Knives from our household collection, limited editions and knives for special presentations can be found here.

NEW PRODUCTS

# RAZOR ('005RAZ)

The Razor ('005RAZ) returns to the Case lineup as the highly anticipated 2024 Case Vault Pattern! Its' name is derived from the distinctively-shaped 3-inch razor blade, making it a standout selection for knife enthusiasts and collectors. The Case Razor, which dates back to pre-1940, was used as a travel shaver. The pattern draws inspiration from the classic Barlow pattern, featuring an elongated bolster for a timeless look and feel. The main blade's distinctive 'hook' at the tip allows the user to use the knife in hard to reach areas. The Razor is available in two configurations: a single-bladed version and a two-bladed version with a secondary Pen blade. The Razor will be offered in a wide range of different handle material choices so you can choose those that suit your personal style and preferences. Whether you're an avid collector or simply in search of your next everyday carry, the Razor will not disappoint.

# RIDGEBACK® HUNTER

Whether you're an avid outdoorsman or a weekend warrior, you'll appreciate the rugged durability of a Case® Ridgeback Hunter. This knife is made for hard work and hard play, with a stainless steel Swept Skinner blade that's sabre/concave ground and your choice of three very different handle options. Each one is as comfortable to hold as the next, and comes with a leather or ballistic nylon sheath for worry-free belt carrying.

# USMC<sup>®</sup> KNIFE

The Case USMC<sup>®</sup> fighting knife is a carefully crafted reproduction of a prototype submitted by Case to the Armed Forces in the early days of World War II. Our design features a blackened carbon steel blade and a grooved natural leather handle to provide a sure grip. A knife of this design was a necessity at that time, not only for battle, but also for digging trenches, cutting through line or wire, opening rations, and a myriad of other tasks while in the theater of war.

## 00334 USMC<sup>®</sup> KNIFE

Knife measures 12 ¾ in (30.8 cm) overall,  
10.2 oz (289.2 g)  
Made in USA

High Carbon Stainless Steel Fixed Blade • Packaged in Two Piece Box

# CASE<sup>®</sup> ASTRONAUT KNIFE M-1

From its inception in 1958, the National Aeronautics and Space Administration (NASA) has been devoted to researching, educating and enhancing life here on earth.

In support of those ideals, NASA has tapped into American manufacturers to help pioneer custom-made tools for specific projects. In the early 1960's, NASA commissioned Case to create a specialized knife to their exact specifications that would ultimately be equipped on every U.S. manned Gemini and Apollo space flight missions.

Case proudly presents this reproduction of those originals, featuring a 11 ¾ inch taper ground, high carbon stainless steel machete blade with saw teeth along the spine and a smooth white synthetic handle.

## 12019 CASE<sup>®</sup> ASTRONAUT KNIFE M-1

Embellished Machete Blade Measures 11 ¾ in  
Knife measures 17 in (48.0 cm) overall, 10.8 oz (306.2 g)

# THE CASE TANG STAMP

It's been said that every Case knife tells a story. That story begins with the unique blade marking, or tang stamp applied to every Case knife, indicating its date of production. Case has used various tang stamps throughout its history, making it one of the world's most collected knife brands over time. We think you'll agree that now is the perfect time to add a new Case knife to your personal history.

2020 Case Tang Stamp

2024 Case Tang Stamp

## DETERMINE THE YEAR OF A CASE® KNIFE

In 1970, Case added ten dots beneath the *U.S.A.* on all knife tangs. Each year a dot was removed.

The same dating system was used during the 1980s. The differences are the "lightning" form of the letter S in Case and *USA* and the fact that the dots were put above the *USA*.

From 1990 to mid-1993, the actual date was stamped on the tang.

The dot system was used again from mid-1993 through 1999.

In 2000, Case introduced a new tang date stamp: five Xs and five dots. From 2000 through 2005, one dot was removed each year. From 2006 through 2009, an X was removed each year.

The 2010 Tang Stamp design again features five Xs and five dots. From 2010 through 2015, one dot was removed for each year. From 2016 through 2019, an X is removed each year.

### JOIN US TODAY!

Chartered in 1981, the Case Collectors Club® is the premier association for Case knife collectors and enthusiasts worldwide. Paid members receive a quarterly magazine and a host of exclusive benefits including event reminders, access to our online forum and limited production knife offerings. Join the thousands of others who keep the legacy of American craftsmanship alive for future generations.

To learn more, please call us at (888) 442-1932 or visit us at [casecollectorsclub.com](http://casecollectorsclub.com)

# CUSTOM IMPRINTING

A person is known by the company he keeps. Case® pocketknives are some of the most collected in the world. Placing your name or company logo on a Case knife will transform a special gift into a cherished keepsake.

Case Knives are perfect for: Employee Appreciation • Retirement Gifts • Holidays • Safety Awards • Company Promotions • Special Dates & Occasions • Customer Appreciation

## FACTORY IMPRINTING TECHNIQUES

Set-up charges may apply.

### LASER-ETCH

Item #00297

Laser transfer onto a metal surface. This is a surface imprint on blades or metal handles. The Laser-Etch is semi-permanent.

### COLOR FILL

Item #00289

One color added to laser engraving. This process is only available on smooth bone, smooth synthetic and wood handles. Color fill options include: gold, white, silver, black, red, yellow, blue and green (may vary by handle type).

### LASER ENGRAVING

Item #00294

Imprint available on leather sheaths and wood boxes.

### PERSONALIZATION & SERIALIZATION

Item #00288 (Bolster)  
Item# 00288BL (Blade)

This is an engraving of letters and/or numbers onto the bolster or main blade. Engraving is permanent.

### TECH PRINT

Item #00267 - One Color  
Item #00268 - Two Colors  
Item #02479 - Three Colors  
Item # 02480 - Four Colors  
Photo emulsion of paint onto blades, metal handles and tin lids. Up to four (4) colors per surface.  
Tech Print is semi-permanent.

### SCROLLING

Item #00298S

Design engraved on 1 - 4 bolsters. Scrolling is permanent.

### TECH PRINT & LASER-ETCH FONTS

Times - Times  
Helv - Helvetica  
LG - Lubalin Graphic  
CS - Commercial Script  
IM - Impact  
CG - Century Gothic  
CB - Clarendon Bold

### ENGRAVING FONTS

## THE CASE LIMITED LIFETIME WARRANTY

We warrant each and every Case knife to be free of defects in material and workmanship for the life of the owner, and we will repair or replace with a new Case knife, at our option, any Case knife that is defective. That's how strongly we feel about the quality of our cutlery. If you believe your Case knife has a manufacturing defect, please complete our online form at [caseknives.com/repairform](http://caseknives.com/repairform) to obtain return authorization. Then follow the simple steps provided to send us your knife for service – or contact Case Consumer Relations at +1 (888) 442-1932 for specific instructions.

## CONSUMER AWARENESS STATEMENT

You expect Case to deliver high-quality, razor sharp knives, and in turn each Case blade is honed to an extremely sharp edge. We ask that you be very cautious when opening, closing, using, handling or sharpening our products in any way. Case® knives are tools used exclusively for cutting applications. They are not designed to be, nor should they EVER be used as an awl, chisel, pry-bar, punch, screwdriver or weapon. Use for any purpose other than cutting applications in a safe unarmful manner shall be deemed misuse. If an injury occurs during use (or misuse) of a Case knife, this is a risk that our customers assume, and Case cannot, in any way, be held accountable.

Due to the inherent properties of the materials we use and the manufacturing and coloring techniques that go into our knives, some items may not look exactly as depicted.

## REGULATIONS

Purchaser is responsible for understanding and following any applicable laws, regulations or ordinances relating to the transport, import, purchase, sale, use, or possession of these products. W.R. Case & Sons Cutlery Company reserves the right (but does not have the obligation) to remove from any orders any products that may be restricted for import, or to increase shipping costs to certain locations.

A close-up photograph of a red, textured leather surface, possibly a book cover or a folder. A silver folding knife with a partially open blade is positioned diagonally in the lower right quadrant. Another black folding knife is partially visible in the upper right corner. The lighting is dramatic, highlighting the texture of the leather and the metallic sheen of the knife.
